02

About Us

Welcome to Marinetech, a professionally set-up technical, crew management and surveying company offering benchmarking services to the maritime industry since its long establishment of more than a decade. The company has been operating from Goa, India and has a branch office in Singapore, offering customized technical and crew management solutions to ship owners operating vessels worldwide in the offshore, inland shipping and maritime sectors.

MISSION

VISION

04

Our Mission

- To set new standards of excellence in ship management. We are dedicated to ensuring the safety, efficiency and sustainability of vessels under our care.
- To empower ship owners and operators, forging a brighter and more sustainable future for the maritime industry.

Our Vision

- We envision setting the benchmark for ship management services globally. We aspire to be the preferred choice for ship owners and operators, providing them with unrivaled technical and crew management solutions.

Our Core Services

Technical Management

At Marinetech, we are your comprehensive technical management partner, dedicated to enhancing the performance and safety of various ship types, including passenger vessels, bulk carriers, container ships, tankers, general cargo vessels, tugs, inland vessels, and river-sea vessels. Our experienced team knows the industry inside out and is dedicated to top-notch vessel maintenance and safety compliance. We follow ISO, ISM Code, and Maritime Labour Convention guidelines to ensure excellence.

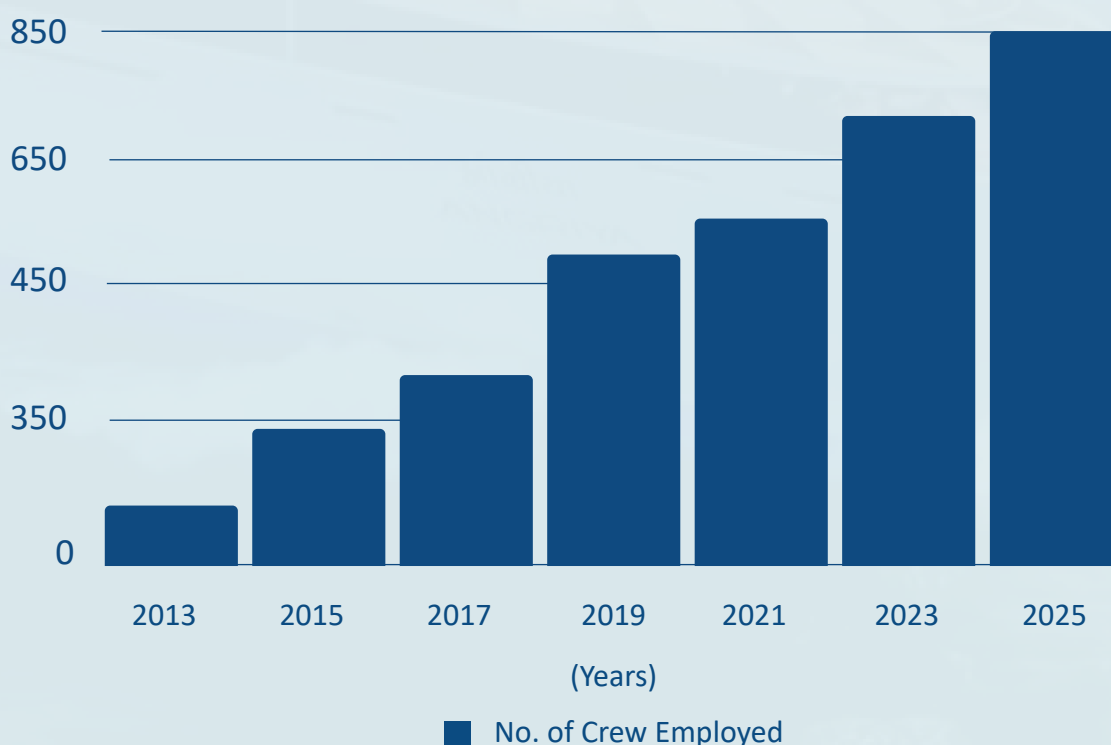

Crew Management

At Marinetech, we go beyond simply manning our clients' ships with the right crew at the right price. We shoulder the entire spectrum of administrative and operational responsibilities associated with crew management. By doing so, we empower our clients to channel their undivided attention towards their core business objectives, confident that their vessels are in capable hands. As a testament to our commitment to excellence, we proudly hold the coveted RPSL (Recruitment and Placement Service License) certification from DG Shipping, India.

05

Training

At Marinotech, we invest in continuous training and development for our crew, equipping them with the latest industry knowledge and leadership skills. This ensures that they are well-prepared to meet the evolving needs of our clients and provide top-tier crew management services.

Travel and Visa Arrangements

Our seasoned travel division excels at facilitating seamless visa arrangements and travel bookings for both seafarers and their families. Our adept travel division handles visa arrangements and bookings for seafarers and families, including travel, tourist, and business visas. With a comprehensive global reach, our travel divisions adeptly handle the intricate visa requirements of nations worldwide. Your travel needs are in capable hands.

06
